PROFESSIONAL SOLUTIONS TRANSFORMING HEALTHCARE

Comprehensive healthcare solutions for all - from
diagnosis to recovery, we've got you covered

assurehealthcaresolutions.com

ABOUT US

At Assure Healthcare solutions, we are dedicated to bringing superior healthcare within everyone's reach. Established in 2020, we provide technology-enabled solutions that make quality medical services accessible and affordable for all. Our offerings cater to the entire healthcare ecosystem - from patients to providers to insurance companies. We transform antiquated systems through innovations like teleradiology, online doctor consultations, AI-powered diagnostics, and intuitive hospital management systems. We also help our clients tap into the promise of medical tourism and telemedicine. Our secret ingredient is a genuine commitment to people's wellbeing. At Assure, we blend care and technology to write better healthcare stories everyday. Get in touch with us to learn more.

OUR MISSION

We strive to blend care and
technology to deliver superior medical
services that enhance people's
well-being.

OUR VISION

Our vision is healthcare without
barriers - where everyone has access
to quality, affordable medical services.

BOARD OF DIRECTORS

We are privileged to have a highly qualified Board of Directors leading Assure Healthcare Solutions. With over two decades of radiology expertise, Dr. Sarath Chandran lends invaluable experience having served as Chief Radiologist in esteemed healthcare organizations. His discernment and foresight guide our teleradiology services and quality control processes. Dr. Vinodh is an exemplary doctor, bringing specialized insight into gastrointestinal imaging. Having trained overseas and authored various research publications, he ensures our reporting standards match global benchmarks. On the administrative front, Mr. Anuraj steers our operations, partnerships and expansion plans. With his astute business acumen honed across venture capital and private equity roles, he helps us scale our service offerings in a financially sustainable manner.

MEDICAL TOURISM

Assure Healthcare Solutions facilitates international patients' travel to India for affordable quality treatment. We have tie-ups with the most advanced hospitals and expert doctors across specializations to ensure excellent clinical outcomes and care satisfaction. Patients can review and select options based on treatment, location and budget preferences via our online portal. Our coordinators then plan the entire trip from visas to airport pickups to local travel and accommodation. We also assist with language barriers, insurance formalities, regular medical updates for families back home and tourism options for recuperation stays post-treatment.

CORPORATE WELLNESS

Our corporate wellness service takes a proactive approach to maintaining employee health and productivity. We operate onsite medical clinics within companies to provide convenient access to care. Services include annual health screenings and vaccination programs. Additionally, we offer comprehensive wellness initiatives to engage employees in improving their wellbeing. These may include onsite fitness centers, health coaching, preventative care education and incentives for healthy behaviors. Our health awareness programs cover topics like stress management, nutrition, disease prevention, mental health and work-life balance.

MEDICAL PUBLICATION

Our medical writing services offer end-to-end support for research paper publication in relevant journals and magazines. We review studies to highlight innovative methodologies and findings that can drive scholarly discussion. Our team helps refine drafts to meet journal formats and audience needs, assisting with report structures, appropriate academic styles and presenting compelling data-based insights. We also manage the submission process, correspondence with journals, editorial boards and incorporation of peer review feedback. Having partnered on publications across various specializations, we are familiar with domain landscapes and reviewer expectations.

MEDICAL TOURISM

Assure Healthcare Solutions facilitates international patients' travel to India for affordable quality treatment. We have tie-ups with the most advanced hospitals and expert doctors across specializations to ensure excellent clinical outcomes and care satisfaction. Patients can review and select options based on treatment, location and budget preferences via our online portal. Our coordinators then plan the entire trip from visa to airport pickup to local travel and accommodation. We also assist with language barriers, insurance formalities, regular medical updates for families back home and tourism options for recuperation stays post-treatment.

TELERRADIOLOGY

Our telemedicine services enable fast diagnostics through on-demand reporting and scan interpretations. We provide round-the-clock coverage for hospitals by connecting them to our network of specialist radiologists. Leveraging smart workflows, advanced PACS and encrypted DICOM transfer, we deliver accurate reports within tight SLAs even for complex cases.

These services are fully backed by our experienced sales companies: Radiology Telemedicine and Clinic Telemedicine.

MEDICAL EQUIPMENT

Assure Healthcare Solutions partners with trusted manufacturers to supply essential medical equipment for modern hospital infrastructure building. Our offerings span from patient monitoring systems, OT lights and X-ray machines to advanced technologies like Cath labs and MRI scanners. We also provide remote installation, maintenance and equipment financing. All our equipment adheres to the highest industry standards for safety and quality assurance. As a cost-conscious solutions provider, we offer budget-friendly equipment bundles for small nursing homes and multi-specialty packages with the latest features for advanced tertiary care centers.

CORPORATE WELLNESS

Our corporate wellness service takes a proactive approach to maintaining employee health and productivity. We operate onsite medical clinics within companies to provide convenient access to care. Services include annual health screenings and vaccination programs. Additionally, we offer comprehensive wellness initiatives to engage employees in improving their wellbeing. These may include onsite fitness centers, health coaching, preventative care education and incentives for healthy behaviors. Our health awareness programs cover topics like stress management, nutrition, disease prevention, mental health and work-life balance.

SCHOOL WELLNESS

Our school wellness programs nurture the holistic wellbeing of students through proactive health services and engaging education initiatives. We conduct annual health and dental screenings to monitor growth, immunity, vision issues etc., so students can receive timely interventions if required. Additionally, we offer a menu of wellness programs that schools can choose from to best meet their needs. These interactive sessions coach children on good health habits covering topics like nutrition, physical activity, mental health, personal safety, puberty education and more - all presented in an age-appropriate way.

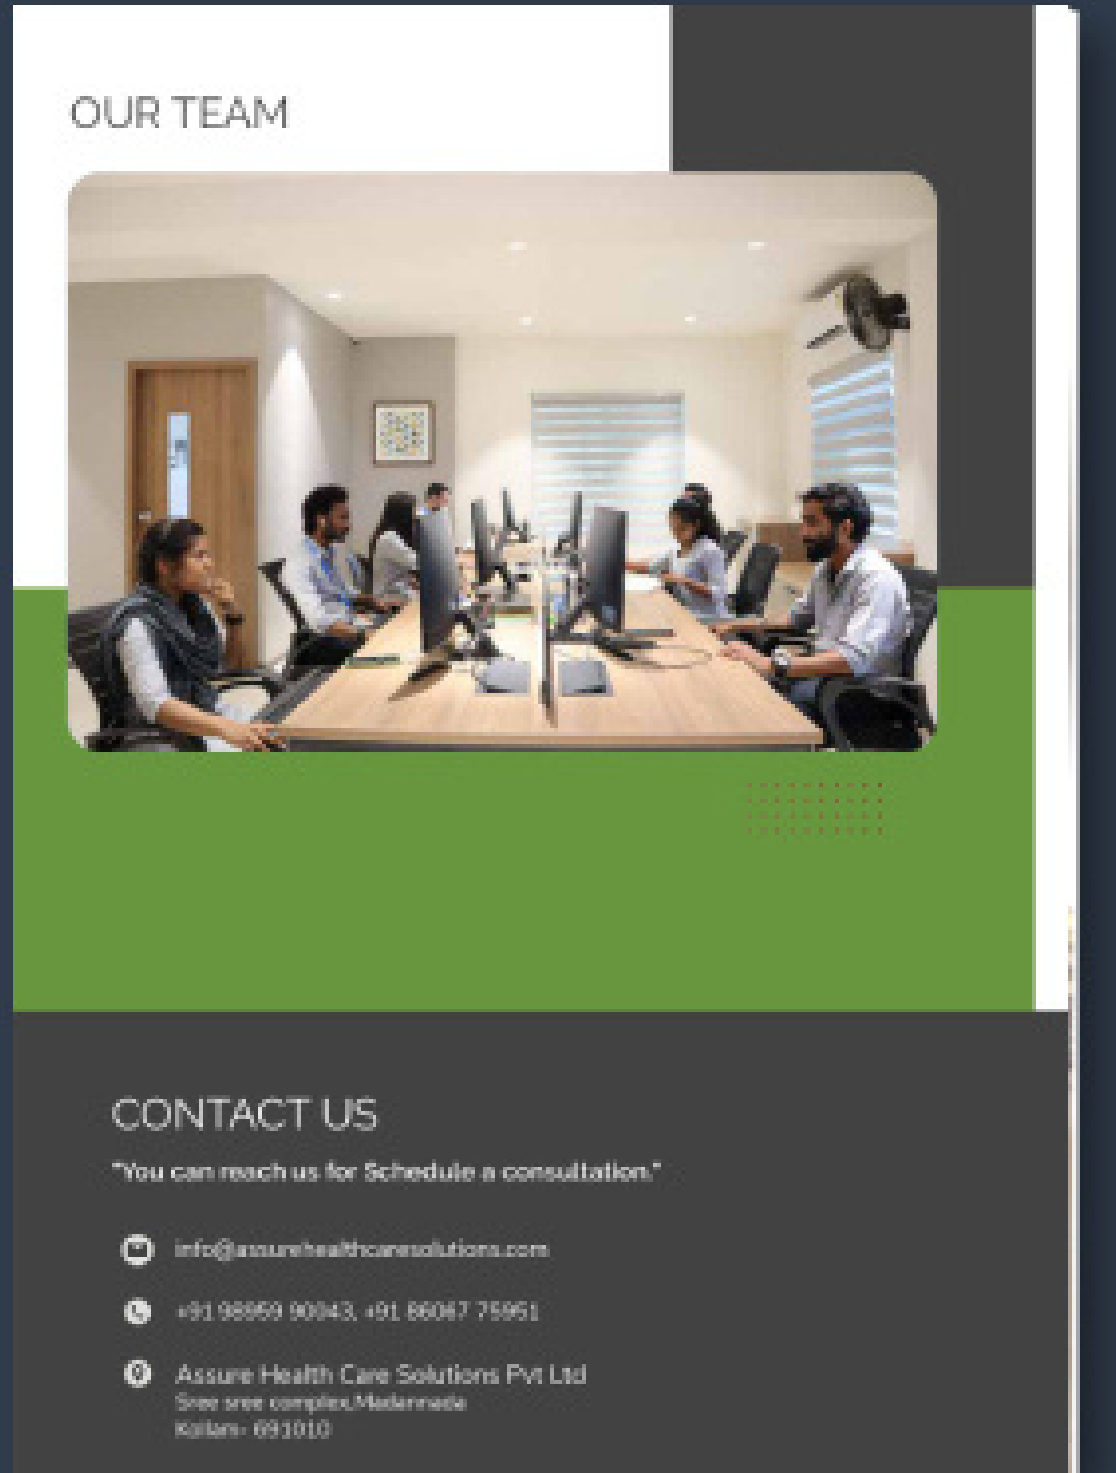

MEDICAL EDUCATION

We empower healthcare practitioners and medical students to advance their skills and knowledge. For practitioners, we offer skill enhancement workshops to stay updated on the latest diagnostic and treatment advancements that can give patients better outcomes. Covering specializations from radiology to gynecology to dentistry, these immersive programs are facilitated by domain experts who highlight global best practices, using insights from their research and experiences.

Additionally, we provide comprehensive guidance to students seeking advice on choosing the right medical-related course, country and college - whether within India or internationally. Programs we advise on include BMS, MBBS, BSc Nursing and more. For those who pursue their studies abroad, we also offer support and preparatory classes for the Foreign Medical Graduate (FMG) exam, ensuring students have a clear path to registration in India. By supporting both medical practitioners and students, we aim to elevate healthcare practices and give patients better access to quality care.
