

JH GREEN INDIA
INITIATIVES

Hello We Are Professional Business

JH GREEN INDIA
INITIATIVES

About us

Spearheaded by the women of the hour - Mrs. JenyAbhinanth and Mrs.Honey Mohan- JH Green India Initiatives kickstarted its operations on 15th November 2021. Our story stems from the thought of giving a platform for spices from God's own country and uplifting them towards the buzzing global market. We take pride in our consistency in ensuring and maintaining the quality of our products. Our day begins by collecting the spices directly from the farmers. From there, everything including plucking and packaging is led by our women force. Along with globalizing one of the heritage of our state - Kerala Spices - we aim to uplift the farmers and the women community, which are the backbone of our nation. JH Green India Initiatives considers the immense contribution from their side as invaluable, and together we are in the pursuit of 'spice revolution'.

Mission

To deliver fresh spices from the Spice Garden of India without compromising on quality.

Vision

To be on the frontline in acquiring the deserved limelight for Kerala Spices hand in hand with empowering farmers and women.

Core Values

We strictly adhere to our core values no matter what. We are advocates of quality, hygiene standards, following the guidelines and bringing happiness to our customers.

Quality: We are consistently praised for our quality standards, and we are stringent in ensuring it right from the procurement stage.

Hygiene Standards: We maintain extreme hygienic conditions, and customers can be sure of it in all stages.

Law-Abiding: All our work processes, including the wholesale, retail and export of our products are as per the prescribed regulations and guidelines, and we don't tolerate any kind of compromise in it.

Happy Customers: Our customers deserve the best, and we strive in putting forth our heart and soul towards their satisfaction.
